

DTF FILM DOUBLE SIDED INSTANT PEEL

DTF FILM DOUBLE SIDED INSTANT PEEL

SKU: AUD-DTF-24X328-2R

2 ROLL PACK

Why Choose Our Double-Sided DTF Film?

Our Double-Sided DTF Film is the ideal choice for businesses that demand reliability, efficiency, and superior results. Its dual-sided matte coating prevents common issues such as curling and warping, ensuring smooth feeding and consistent performance with every print.

Designed for precision and color accuracy, it delivers crisp, vibrant images that bring your garments, fashion pieces, and promotional textiles to life.

With instant hot peel technology, you'll experience faster production times and greater workflow efficiency, allowing you to take on larger orders with confidence. Whether your goal is to boost productivity, elevate print quality, or expand the versatility of your textile printing, this film delivers dependable performance professionals' trust.

Product Specifications

- Film Size: 24" x 328ft (60cm x 100m)
- Film Type: Double-Sided Coated DTF Transfer Film
- Peel Type: Hot Peel – Instant peel after 3-second press at 300°F
- Material: High-quality, eco-friendly PET film
- Surface Finish: Matte double-sided coating for improved stability and reduced warping
